

For being B.Sc from Govt. Degree College, Nandyal, Kurnool District, Andhra Pradesh, Mr. S. Chandra Sekhara Sastry is a passionate mathematician, enthused by the challenges posed by the worries of the students, teachers and the parents in understanding and treating mathematics in the right spirit. He charged up with the ambition of bringing in smile on the faces of everyone with the "fun and learn" element of mathematics for the last 30 years. He has authored several books for interesting tips to solve complex mathematical applications. Designed and delivered training programs for students, teachers and parents in over 1800 schools and workshops. Aired several programs on AIR and Doordarshan. Designed and established "Mathematics laboratories - the first in the region" in 45 schools. He handhold the implementation of the implementation of the laboratory material both at the level of the students and teachers. He has designed and showcased 'Ganita Awadhanam' with the students, which is the first of its kind of program in whole of India. He has attended many national and international seminars/conferences. He received the award of "Innovative Teacher" from AMTI, Chennai. He elected as a President of 'Ramanujan Mathematics Academy and Mathematics Library- Ramachandrapuram

Mr. Sastry is a noted teacher. He makes young kids to perceive unknown objects and creates models to make the kids understand the objects. Let me congratulate him request him to continue his persue with passion.
